Policy Studies Review, Vol. 3, No. 1, August, 1983

INDEX TO VOLUME 2 OF THE POLICY STUDIES REVIEW

The following indexes of authors and subjects cover the four quarterly issues of the second volume of the *Policy Studies Review* and the special bonus issue that was published outside the regular quarterly cycle. The four regular issues are numbered from page 1 through page 838. The special bonus issue is numbered S1 through S263. Those five issues cover a variety of topics by way of the symposia, the nonsymposium articles, and the literature reviews. The symposia especially dealt with rural policy, criminal corrections, consumer protection, economic revitalization, and educating handicapped persons. The Index of Authors covers authors of articles, authors of books reviewed, and reviewers of books, but not names referred to in the articles. The Index of Subjects mainly covers the basic concepts included in the titles of the books reviewed. The bodies of the articles and the book reviews were also consulted to clarify the concepts derived from the titles. Future annual indexes will appear at the beginning of the first issue of each volume to cover all the issues in the previous volume.
